

SIZING GUIDE

FOR IO COLLECTIVE BRACELETS

Whether you are looking to buy a gift or want to know the size that fits you best, we're excited to work with you! Below is our bracelet guide. We look forward to assisting you in determining the correct IO Collective bracelet size.

IO COLLECTIVE

1. USING A BRACELET YOU ALREADY HAVE

Find a bracelet that fits you correctly. Set it down flat. Measure with a ruler the length in inches from the top of the clasp to end of the bracelet. Make a note of the measurement.

Order your IO Collective bracelet in a size as close as possible to this measurement.

2. MEASURING YOUR WRIST

HOW TO MEASURE YOUR WRIST PROPERLY

Use a tape measure. Wrap the tape measure around the wrist on which you plan to wear your IO Collective bracelet. Make a note of the number at the point where the tape meets the 0. To ensure the bracelet fits comfortably, add 0.5 inches.

You can then add or subtract inches according to whether you prefer a loose, exact or tight fit. Download and print our wrist sizer. Before printing, make sure the "page scaling" option is set to "None" in the dialog box of your printer options. The IO Collective Wrist Sizer must be printed on full-size standard letter paper. Follow the instructions and make a note of your wrist size.

SIZE GUIDE

Before printing this guide, be sure to follow the instructions.

Cut out the paper Wrist Sizer and follow the instructions below.

Make sure that the numbers are on the outside of the paper Wrist Sizer and insert the pointed end through the opening you have cut at the the other end of the Wrist Sizer where indicated [cut here]. Place your hand through the Wrist Sizer and pull the pointed end until it fits comfortably on your wrist. The number that lines up with the edges of the opening is the size of the wrist. You can also use a tape measure but if you do not have one, take any small piece of ribbon or cord. Wrap it around your wrist and measure the length against a ruler.
